

2021 Nebraska Third Year Teacher Survey

Peru State College

Introduction

The Nebraska Department of Education (NDE) administered the Nebraska Third Year Teacher Survey from early February to late February 2021. This year marks the fourth successful implementation of the survey, with the survey being sent to principals for the fourth time and third-year teachers for the third. Surveys were distributed to the principals of third year teachers, and to the third-year teachers themselves, who completed their preparation programs at 15 preparation institutions in the state. The participating institutions are as follows:

1. Chadron State College
2. College of Saint Mary
3. Concordia University
4. Creighton University
5. Doane University
6. Hastings College
7. Midland University
8. Nebraska Wesleyan University
9. Peru State College
10. Union College
11. University of Nebraska at Kearney
12. University of Nebraska at Lincoln
13. University of Nebraska at Omaha
14. Wayne State College
15. York College

Evaluation standard indicators are based on the Council of Chief State School Officers (CCSSO) Interstate Teacher Assessment and Support Consortium (InTASC) Model Core Teaching Standards, which are recognized as indicators of teacher quality (https://ccsso.org/sites/default/files/2017-12/2013_INTASC_Learning_Progressions_for_Teachers.pdf). The purpose of the survey is to provide Nebraska educator preparation institutions with information about the effectiveness of 3rd year teachers prepared by their institution. For a list of indicators, please see the Results section below.

Method

A list of teachers was compiled based on those who were completing their 3rd full year of teaching in the 2020-2021 school year, regardless of where teaching had taken place previously, on a Nebraska teaching certification. These teachers were from one of the (15) participating institution's teacher

preparation programs. The data for this list came from the Nebraska Student and Staff Record System (NSSRS) and the Nebraska Teacher Certification Database. If a teacher had assignments at multiple schools, the survey was sent to the principal and the teacher at the school where the majority of the teacher's full-time equivalency (FTE) was assigned. The survey was developed using the Qualtrics application and distributed electronically via email. Pre-notification of the survey was sent out on January 28th to Human Resource staff, institutions, principals, and teachers. The survey email invitation was also sent out on February 2nd with subsequent email reminders sent on February 11th and February 22nd. The survey finally closed on February 26th. In total, 627 surveys were distributed to principals and 391 were returned, resulting in a response rate of 62.36%. For teachers, 627 surveys were also distributed and 309 were returned, resulting in a response rate of 49.28%. For Peru State College specifically, 15 surveys were distributed to both principals and teachers; 10 were returned by principals, for a response rate of 66.67%, and 6 were returned by teachers, for a response rate of 40.00%.

Respondents were asked to rate the extent to which the third-year teacher was effectively prepared for their school assignment on various indicators. These indicators were based on the degree to which the teacher meets the expectations: Advanced, Proficient, Developing, or Below Standard. Both principals and teachers were asked to rate the teacher's impact on student learning, and to provide comments for informing the institution's continuous improvement efforts toward preparing classroom-ready teachers." Besides that, principals were also asked if they considered the teacher effectively prepared for continuing employment in their districts. Teachers, on the other hand, were asked if they were prepared to be an effective third-year teacher.

Results

The survey results are displayed below in several tables and figures. Table 1 displays the standard indicators used in the survey that both principals and teachers answered with the Advanced, Proficient, Developing, or Below Standard response options. Tables 2 and 3 illustrates the average responses per standard indicators for both principals and teachers and disaggregated by endorsement types. In Figures 1 through 4, the response options for both principals and teachers are given a numerical value (3=Advanced, 2= Proficient, 1=Developing, 0=Below Standard), summed by Indicator category, and then averaged. Tables 4 through 7 display the results of the questions concerning the impact on student learning, continued employment (for principals), and preparedness (for teachers). 86.96% of third-year teachers believed they were prepared to be an effective 3rd-year teacher.
